

Aisha Lewis is the Chief Information Officer at both The Authentic Consortium LLC, where she leads the creation of CONNECT application as well as the Founder and CEO of Titan Secure Technologies (formerly Hue-Solutions, Inc.), bringing over 20 years of comprehensive experience in Information Technology. As a distinguished IT leader, she held multiple advanced certifications including CCNP+ Security, MCSE, and CCNA, demonstrating her deep technical expertise in network security and systems engineering.

Her career path showcases a unique blend of technical proficiency and leadership, having progressed from hands-on roles in help desk support and network administration to executive-level technology management. At the Department of Veterans Affairs, she served as an IT Specialist (GS-11), where she managed critical healthcare IT infrastructure and telecommunications services. Her federal service background includes maintaining security clearances (Secret and Top Secret/SSBI), highlighting her capability to handle sensitive information and systems.

Now at Titan Secure Technologies, Aisha leads the company's technology initiatives, focusing on integrated solutions spanning cybersecurity, artificial intelligence, and disaster recovery services. Her expertise in both technical implementation and project management has been instrumental in securing and executing contracts with notable clients, including the USDA and the Bill and Hillary Clinton National Airport.

Interestingly, beyond her technical achievements, Aisha was also a certified basketball coach (NCAA, USA Basketball, and AAU), demonstrating her diverse skill set and leadership capabilities both in technology and athletics.
